Nurse Assessment/MDS Coordinator

Full-Time, Exempt | Nebraska *Long-Term Care & Skilled Nursing*

Are you an organized, detail-oriented Registered Nurse who loves combining clinical expertise with big-picture impact? We are looking for a dedicated Nurse Assessment Coordinator (MDS Coordinator) to anchor our resident assessment process and ensure the highest standards of care and operational excellence. In this vital role, you'll serve as our facility's expert on the Patient-Driven Payment Model (PDPM), coordinate comprehensive MDS assessments and care plans, and work hand-in-hand with an amazing interdisciplinary team to drive quality measures that truly matter.

- Oversee and coordinate the federally mandated Resident Assessment Instrument (RAI) process, MDS assessments, Care Area Assessments (CAAs), and comprehensive care plans.
- Manage OBRA and PPS assessment schedules, handle Medicare level-of-care determinations and certifications, and oversee electronic transmissions and validation reports.
- Partner closely with nursing, therapy, dietary, social services, and hospital discharge planners to guarantee seamless care delivery and accurate ICD-10-CM coding.
- Champion Quality Improvement: Serve on our QAA/QAPI committees, analyze MDS-based Quality Measures, and support staff education to ensure ongoing clinical accuracy.

What We're Looking For:

- Licensure: Active Registered Nurse (RN) license. *(Note: LPNs/LVNs with strong backgrounds may be considered for secondary NAC positions supported by RN oversight).*
- MDS experience or certification is strongly preferred.
- Familiarity with state and federal long-term care regulations, specifically Appendix PP sections \text{§483.20} (Resident Assessments) and \text{§483.21} (Care Plans).
- Exceptional time-management, stellar critical-thinking skills, high integrity, and a passion for organizing and meeting deadlines.
